

# Easy READER+®

## Noua Generatie de Cititor de Teste Cantitative

**Cititorul VEDALAB Easy Reader+® POC permite masuratori cantitative din sange capilar**

- Interfata utilizator flexibila:
  - Mod de lucru simplu si mod avansat
- - **Imprimanta incorporata**
  - Touch screen
  - Barcode reader (optional)
  - CCD camera
- **Interconectare Optima**
  - Interfata : USB A, USB B, Ethernet, RS232
  - Protocols : HL7, LIS2-A2
- **Memorie Date:** ultimele 1,000 rezultate cu imagini
- **Sistem adaptabil:** Multilingual, upgrade online, utilizabil cu baterii AA (portabil)
- **Cost efectiv :** instrument afordabil utilizabil cu o mare varietate de teste ... si multe teste in proces de dezvoltare !
- Disponibil cu meniu in limbile (Engleza, Franceza, Germana, Spaniola, etc.)
- Posibilitate de masurare teste calitative

### Teste cantitative disponibile

- |  |                   |  |               |
|--|-------------------|--|---------------|
| ■ AFP                                    | ■ Cystatin C      | ■ Insulin                              | ■ Total T3    |
| ■ CA-125                                 | ■ C-Peptide       | ■ HS-Insulin                           | ■ Total T4    |
| ■ CA 15-3                                | ■ D-Dimer         | ■ LH                                   | ■ Transferrin |
| ■ CA 19-9                                | ■ FAPB            | ■ Microalbumin                         | ■ Troponin I  |
| ■ Calprotectin                           | ■ Ferritin        | ■ Myoglobin                            | ■ TSH         |
| ■ CEA                                    | ■ FOB             | ■ NT-proBNP                            | ■ HS-TSH      |
| ■ CK-MB                                  | ■ FSH HbA1c       | ■ Procalcitonin                        | ■ ULTRA-TSH   |
| ■ Cortisol                               | ■ Hb-Total        | ■ Prolactin                            |               |
| ■ CRP (laborator sau cabinet medical)    | ■ hCG (S/P sau U) | ■ HS-Prolactin                         |               |
| ■ HS-CRP (laborator sau cabinet medical) | ■ beta-hCG        | ■ PSA (cantitativ sau semi-cantitativ) |               |
|  | ■ IgE             | ■ PSA Free                             |               |
